

Ashfield

2Bdrm. Apartment 3.01 Level 3 plus car space

Although it's the same price as a 2 Bedroom Flexi over the other side of the building the design for this apartment gives you more m2 for your money with a total area of 66m2 plus car space.

It's long elongated design has 2 large bedrooms both with built-ins and a bathroom in between. Down the other end is the Living and kitchen area extending out to again, a slightly larger balcony.

With the Inner West changing rapidly, and Ashfield being only 14 minutes peak time by train to Sydney city and surrounded by so much ethnic diversity and life, then its already a smart choice for investors or inner city dwellers to buy one of these luxury apartments.

As you can imagine these Ashfield apartments are selling really fast. Due for completion in mid 2016, these apartments are in a boutique ten storey building with views of Sydney city and the Sydney Harbour Bridge.

What I also think is so forward thinking and innovative about these luxury apartments is that the Architects have created unique common areas such as the Grand lobby with lounge room, a stylish Rooftop lounge and BBQ area, plus amazingly, both a Music room and a Theaterette, yes incredible.

If you are not intending to live in your apartment then Bluebell Real Estate will have no problem to manage your rental property with the estimated rental return
