

Brisbane

## 1 Bedroom. Design #7

This apartment's clever design is a similar shape to a triangle, so the internal space of 51 m2 plus the external 30m2 area both capture the full views and total 81m2.

Design #7 facing South: 1Bdrm. Price starts from \$457,000 no car space.

The innovative design of this building is to capitalise on the gorgeous views from each and every apartment plus the mesh veil facade on the outside of the entire building is to allow the residents to capture the sensational wrap around city and river views but still be protected from the weather.

There are 39 Levels in the building, and on each floor the design configuration is the same, so if you look at the Floor Plan you can choose the Apartment design that you like and then select a Level to suit your budget. There are 10 different apartment shapes which are replicated on all floors.

All apartments are designed to capture the view from north, south, east or west plus from most aspects of the interior apartment such as the living and kitchen area plus all bedrooms, which is an extraordinary architectural triumph.

If you wish to live or invest in the vibrant capital of Queensland, then Bluebell Real Estate recommends these outstanding architecturally designed new off the plan apartments right in the heart of the Brisbane central business district.

Im really excited about this project because its been designed by the world class
